Pengesahan kehadiran tidak direkodkan untuk acara ini.

Penggunaan tapak-hari

Tapak-hari aktif tersedia	64
Tapak-hari diduduki	9
Penggunaan tapak-hari	14.1%

Site-day utilisation = occupied active site-days ÷ available active site-days × 100. Unavailable sites are excluded. This is not unique physical-booth occupancy.

Kategori peniaga diluluskan

Food & Beverages	3
Pre-loved / Thrift	1
Electronics & Gadgets	1

6. FINANCIAL AND ANALYTICAL FINDINGS

Expected booking revenue was RM 180.00.

At the data cut-off, RM 0.00 of RM 180.00 invoiced revenue had been collected, leaving RM 180.00 outstanding.

Unbilled booking value was RM 0.00.

Collection rate was 0%.

Site booking revenue from frozen booking price snapshots and invoices. Vendor survey sales are not organizer revenue.

Hasil tempahan dijangka	RM 180.00
Jumlah diinvois	RM 180.00
Hasil dikutip	RM 0.00
Baki invois tertunggak	RM 180.00
Nilai tempahan belum diinvois	RM 0.00
Kadar kutipan	0%
Tempahan diluluskan tanpa invois	0

EVENT PERFORMANCE (DETAIL)

The largest category was Food & Beverages with 3 unique vendors (60% of category-labelled unique-vendor counts).

Category totals may exceed unique vendors when a vendor has multiple category-labelled bookings.

Peniaga diluluskan unik	5
Tempahan diluluskan	5
Tapak tempahan terbuka	64
Tapak dijual	9
Tapak tersedia	55
Penggunaan tapak	14.1%

Taburan kategori peniaga

Primary metric: unique participating vendors. Category totals may exceed unique vendors if a vendor has multiple category-labelled bookings.

Kategori	Peniaga unik	Tempahan diluluskan	Tapak dijual	Bahagian peniaga	Hasil tempahan dijangka
Food & Beverages	3	3	6	60%	RM 120.00
Pre-loved / Thrift	1	1	2	20%	RM 40.00
Electronics & Gadgets	1	1	1	20%	RM 20.00

7. VENDOR AND COMMUNITY FEEDBACK

1 feedback response were recorded (n=1).

Rating distribution — 5★: 1.

Responses comprised 1 vendor and 0 non-vendor submissions.

Because n=1, this should not be interpreted as representative of all participants.

Aggregate In-app Feedback only. Raw comments are excluded from published reports.

10. CONCLUSION

At the data cut-off, the snapshot recorded 5 applications, 5 approved bookings, and 5 unique approved vendors. 9 of 64 open booking sites were occupied, producing 14.1% utilisation and leaving 55 sites available. At the data cut-off, RM 0.00 of RM 180.00 invoiced revenue had been collected, leaving RM 180.00 outstanding. Verified attendance was not recorded for this event, so participation figures must not be read as footfall. Vendor survey sales evidence was not available in this snapshot. This conclusion summarises recorded snapshot metrics and known data limitations only. It does not judge overall event success.

11. METHODOLOGY AND DATA NOTES

Skop laporan	This report covers one carboot event only.
Versi laporan	Version 1 (Sementara)
Tarikh potong data	23 September 2026, 1:47 petang
Permohonan vs peniaga unik	Application counts and unique applicant/vendor counts are separate.
Tempahan diluluskan vs kehadiran	Approved bookings are not labelled as attendance unless verified check-ins are recorded.
Penggunaan tapak-hari	Occupied active site-days ÷ available active site-days × 100.

Kemasukan kewangan	Collected booth fees include paid approved invoices and paid withdrawn bookings under the non-refundable withdrawal policy. Pending verification and refunds are shown separately when present.
Data hilang	Missing or unavailable metrics are omitted or shown as Not recorded / Not available — never invented as zero.
Sementara / Muktamad	Provisional means the snapshot may still change. Final means the published snapshot for this version is frozen.
